

TREASURES AROUND ME

*Proiect internațional eTwinning al
Școlii Gimnaziale "Teleki Domokos" Gornești
2016-2017*

The "Tresures around me" project aim is to show students the importance, the role and the value of the school and the community where they belong. We encourage them to find a connection between school and the surrounding world and train them to use their knowledge as an advantage in everyday life

SPECIFIC PROJECT AIMS

1. Developing communication skills in a foreign language
2. Developing the capacity to perceive the message written in English
3. Developing communication skills in their native language
4. Applying the principles and methods appropriate to address to historical sources
5. Identify and explain the social, civic and cultural characteristics of the geographical space
6. Developing self expression using art

- *The target group - students aged between 11 and 14 years.*

An aerial photograph of a beach with waves crashing onto the shore. The water is a mix of green and blue, with white foam from the waves. The sand is a light brown color. The waves are breaking in a series of parallel lines, creating a rhythmic pattern. The overall scene is dynamic and natural.

*Partners: Schools from

ACTIVITIES

activities carried out by school students

Time of outdoor geography

A group of four children are participating in an ecology hour by a river. They are standing on a rocky bank, looking down at the water. The children are wearing casual clothing, including hoodies and pants. One child is wearing blue gloves. The background shows a river with a sandy bank and trees. The text "We believe in nature. Ecology Hour" is overlaid on the image.
